

To: Admin of Melioidosis Research Coordination Network (RCN)

I would like to report that, at Pointe-à-Pitre University hospital, Guadeloupe, French West Indies

In 2017, we found 3 culture-confirmed melioidosis cases and one of them died.

I am happy to be the contact person about melioidosis cases at the hospital.

Sincerely,
Bénédicte Melot
Medical assistant in infectious and tropical diseases
