

To: Admin of Melioidosis Research Coordination Network (RCN)

I am happy to be the contact person about melioidosis cases at the hospital. would like to report that, at Calmette hospital, Phnom Penh Cambodia

In 2018, we found 97 culture-confirmed melioidosis cases and 29 of them died.

In 2017, we found 76 culture-confirmed melioidosis cases and 36 of them died.

In 2016, we found 59 culture-confirmed melioidosis cases and (no data) of them died.

In 2015, we found 50 culture-confirmed melioidosis cases and (no data) of them died. Data was not complete (from June to December)

In 2014, we found 50 culture-confirmed melioidosis cases and (no data) of them died. Data was not complete (from January to October)

In 2013, we found 33 culture-confirmed melioidosis cases and (no data) of them died.

I am happy to be the contact person about melioidosis cases at the hospital.

Sincerely,

Sotharith BORY
