<please edit or adjust as you see fit>

I would like to report that, in **Khon Kaen Hospital, Khon Kaen, Thailand**

From 2016, we found culture-confirmed melioidosis cases and deaths of them as following

Year	Khon Kaen	
	Total No. of culture-confirmed cases	Total No. of Deaths
2013	79	Unknown
2014	92	10
2015	95	8
2016	114	64

<please feel free to report more years if you would like. If you don't know the number of deaths; please just say "unknown">

Total No. of Deaths reported included Died and discharged against advice.

I am happy to be the contact person about melioidosis cases at the hospital.

Sincerely,

Surasakkdi Wongratanacheewin , Ph. D.

To: Admin of Melioidosis Research Coordination Network (RCN) <melioidosis.info@tropmedres.ac>

On behalf of my institution, I want to note that my institution would like to be described on www.melioidosis.info with **that we can support other people outside of my own institution as following.**

List of possible supports.

- B. pseudomallei identification: **[Yes]**
- Isolate or specimen storage: **[Yes]**
- Research collaboration: **[Yes]**
- Biosafety guidance: **[Yes]**
- Reporting human cases (Yes for Srinagarind and KK hospitals)

I am totally aware that cost of the support is up to the discussion from my own institution and those who seek the supports.

I want the following note to be displayed on the website under the list of possible supports (maximum 250 characters)

Happy to do research collaboration. We work on bacteriophage and biocontrol of B. pseudomallei in the environment. Approximately 250 cases/year in 2 hospitals in Khon Kaen. We have 4,000 isolates collected from NE hospitals, except Ubon and Udon Thani

Sincerely,

Surasakkdi Wongratanacheewin , Ph. D.
