On behalf of my institution, I want to note that my institution would like to be described on www.melioidosis.info with that we can support other people outside of my own institution as following.

List of possible supports

- B. pseudomallei identification: [No]
- Isolate or specimen storage: [No]
- Research collaboration: [No]
- Biosafety guidance: [No]

I totally aware that cost of the support is up to the discussion from my own institution and those who seek the supports.
