I would like to report that, in **North Central Vietnam**, from **June** to **December** 2015, our research network for melioidosis (RENOMAB) found 70 culture-confirmed cases of melioidosis, and 18 of them died

I am happy to be the contact person about melioidosis cases in our network.

Sincerely,

Trinh Thanh Trung

On behalf of my institution, I want to note that my institution would like to be described on www.melioidosis.info with that we can support other people outside of my own institution as following.

List of possible supports.

- B. pseudomallei identification: [Yes]
- Isolate or specimen storage: [Yes]
- Research collaboration: [Yes]
- Biosafety guidance: [Yes]
- Reporting human cases (this will be automatically turn "Yes" only after admin received the data that can be displayed on the website)

I totally aware that cost of the support is up to the discussion from my own institution and those who seek the supports.

Sincerely,

Trinh Thanh Trung
